This action is in response to the amendments and terminal disclaimers filed 1/18/05.

Terminal Disclaimer

1. The terminal disclaimers filed on 1/18/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US patents 6506628, 6017776, 6200833, 6706559, and 6312977, has been reviewed and is accepted. The terminal disclaimer has been recorded.

Reasons for Allowance

2. Claims 1-68 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1, 16, 29, 41, 48, 54, 66, 67 and 68, contain the limitation for attaching a semiconductor die where after identifying and testing for acceptable die, an adhesive is applied in a wet state, partially cured to a tacky but flowable state and attaching a portion of at least one lead from the plurality of leads from the lead frame and a portion of the active surface of the die. This limitation, in combination with the other limitations of claims 1, 16, 29, 41, 48, 54, 66, 67 and 68 is not taught or suggested by the prior art of record. Neither Farnsworth (US 5286679) nor Hayes (US5681757) teaches this. The instant claims have been amended to overcome statutory double patenting and four terminal disclaimers have been properly submitted to overcome obvious double patenting.
